iZOTRON - Blissful Exuberant with its Latest Gadget Entrant

New Delhi, Delhi, India

In this technology driven era, iZOTRON is coming up with a cutting edge combination of design and performance in the form of a Calling Tablet with 3G. Talking about entering a product type which is already overloaded with many options, what different this brand has to offer, is the meager price of around INR 6900.

“We are planning to blow your minds and not pockets”, says Director **Lakshmi Goyal**. Not only price, they are also planning to start the operations of services at more than 200 centers. The device will be initially launched exclusively with one of the online marketplaces, the name of which is yet to be revealed. Later on, the device will be available via iZOTRON's own online shop - www.shopizotron.com, as well as on major online retail hubs like Flipkart, Snapdeal, eBay, Homeshop18 and Amazon.

After the resounding success of their Feature Rich Tablet PCs – **NKS101**, High End Power Banks – **Neo Power 10400** and Portable Speakers with Japanese Sound Drivers – **V6 Sound Dock & MiniBoom**, they seem to be prepared to establish a good stand among various technology players within the Industry. iZOTRON's product is very well in congruence with its mission and vision statement “**the power to be your best**”.

Explaining about the product, President, **Varun Goyal** says, “This product is new and made after thorough research therefore, it completely fills all the gaps which consumers complain about; it is trendy, durable and affordable all at the same time. A powerful package that comes without pinching your wallet.” More details and technical specifications will be unveiled soon!

This new product is like a fresh breeze in the red ocean of Mobile Devices, banking upon consumers' ever changing tastes and preferences, iZOTRON is ready with a power packed launch due in November 2014.
